

Do you know of an exceptional project, built here in the Granite State, that has had a positive impact on the community? We invite you to nominate it for this year's Merit Awards of Excellence. Awards go to outstanding projects that reflect Plan NH's mission (see below). There is no set number of awards, nor are there set categories.

About the Organization

Plan NH has a vision of healthy and vibrant communities across the state. Because we believe that what, how and where we build influences that health and vibrancy, our mission is to "foster excellence in planning, design and development of New Hampshire's built environment."

We do so by being champions of Smart Growth and Livability Principles, of the Triple Bottom Line (social, environmental and economic) as well as creative approaches to collaboration and cooperation.

One way we do this is through our annual Merit Awards program, in which we recognize and showcase outstanding projects that reflect the mission and values of Plan NH, and that demonstrate how the built environment can make a positive contribution to people and places.

Award Qualifications

Project Completion Date 2015 — Present

Project Location: New Hampshire

Did it Positively Impact the Fabric of a Community:

- Socially
- Economically
- Environmentally (including Health)
- Inclusivity

Does it Demonstrate:

- Smart Growth & Livability Principles
- Creative Approaches to Cooperation & Coordination

Application Fee: \$100 for members & \$200 for non-members per submission

Checks made payable Plan NH, PO Box 1105, Portsmouth, NH 03802-1105. Payment must be received by May 5, 2021.

Judging Criteria

Please complete the following:

1. 5 page (maximum) narrative describing the purpose, challenges, innovations and what makes this project stand out addressing the criteria listed below. You may include any graphics that help illustrate the project to the judges.
2. 3-5 photos (300 dpi or higher jpgs not PDFs) - *uploaded separately from the nomination package to maintain quality*

Criteria

**Points
(Max)**

Positive Community Impact

10

Social

Bringing people together or creating space that fosters this.

Economic

Taxes, supporting local businesses, fostering entrepreneurship, attracting new businesses.

Environmental

Honoring water features, cleaner air, energy efficiency or health impacts.

Inclusivity

Taking into account a broad range of people (age, abilities, race, religion or more).

Demonstrates Smart Growth & Livability Principles

10

Support & Value Existing Communities & Neighborhoods

Enhance their unique identity through investments in revitalization of existing buildings; foster thoughtful growth and change through mixed-use development, improving walkability, preservation of open space/creation of green spaces, managed infrastructure expansion. Maintain a human scale of development in line with the community's traditional growth patterns.

Provide Choices in How to Get About

Provide infrastructure for safe, reliable and economical means of travel for everyone to access jobs, education, food, medical services and social connections. Provide means to equitably decrease household transportation costs, reduce dependence on fossil fuels, improve our air quality by reducing greenhouse gas emissions, and improve public health and well-being. (Create livable, walkable communities that increase accessibility for people of all ages, whether on foot, bicycle, wheelchair, or in motor vehicles.)

Provide Choices in Places to Live (Location, Design, Price Point)

Expand design and price-point choices of where to live for people of all ages, incomes and levels of mobility. Location choices aim to lower the combined costs (financial, time) of where one lives with how one travels - to jobs, education, healthy food, medical services and more.

Collaboration & Cooperation

10

Creative collaboration/cooperation between or among people or groups; and/or

Involve the community in planning and implementation to ensure that development retains and enhances the sense of place, traditions, goals, and values of the local community; and/or

Manage growth locally in the New Hampshire tradition, but work with neighboring towns to achieve common goals and address common problems more effectively.

Please also note you are providing consent for any content provided through this nomination to be published by Plan NH in press releases, website content, and other communications. Provide any credits necessary with your nomination.
