To look at what existing and new statutes municipalities can use to take on the housing problems they face, as well as look at proposed housing legislation for the upcoming session.

Many residence of the MWW have asked us, "What can our Town do to help with the housing problem?" This webinar seeks to educated Municipal Officials and the Public on the use of existing statutes pertaining to Housing Commissions and newly passed SB102. As these are State laws this webinar is pertinent to communities around the State! We need to continue assessing housing in NH as well as solutions; so we will also be looking at the new proposal of the housing "toolkit" bill for the 2022 Legislative Session.
